PROFESSIONAL SUMMARY

MERN Stack Developer with strong knowledge of React.js, Node.js, Express.js, and MongoDB. Solid understanding of JavaScript fundamentals, API development, debugging, and problem-solving. Experience building production-ready full-stack applications with clean and efficient code

SKILLS

Programming Languages	Java, Python, JavaScript (ES6+)
Frameworks	React.js, Node.js, Express.js, TailwindCSS.
Database	MongoDB
Developer Tools	Git, GitHub, VS Code, Postman
Core Concepts	OOP, DSA, REST APIs, Problem-Solving, Debugging, SQL

PROJECTS

BloodNet - Blood Donor Finder App | *ReactJs, ExpressJs, Mongoose, JWT, TailwindCSS* | [GitHub](#) [LIVE](#)

A web platform for blood donors and patients that helps patients find blood donor quick and easy.

- Engineered a full-stack system to match blood donors and recipients using optimized REST APIs and secure data flow.
- Implemented JWT authentication and real-time donor filtering by city and blood group.
- Optimized backend with Express.js + MongoDB (Mongoose) for fast querying and scalability.

resuMATER – AI Resume Analyzer | *GEMINI, ReactJs, ExpressJs, Mongoose* | [GitHub](#) [LIVE](#)

A resume analysis platform that evaluates resumes against job descriptions. Implemented scoring logic with actionable improvement suggestions using AI.

- Developed a responsive and modern college website using React.js with modular component architecture.
- Achieved 99% scores on Lighthouse for Performance, Accessibility, and SEO.
- Cut initial load time by 40% through lazy loading of components and image optimization.

URL Shortener Web Application | *React, Express, MongoDB* | [GITHUB](#) [LIVE](#)

An URL shortener service that converts long URLs into unique short links. Implemented redirection logic and database persistence using MongoDB.

- Developed a full-stack URL shortening service with custom aliases, copy-to-clipboard feature, and error handling.
- Achieved 99% Lighthouse score for performance and best practices via optimized frontend and lazy loading.
- Enhanced reliability and UX with proper HTTP error handling and secure API implementation.

Achievements and Responsibilities

- Solved 200+ coding problems across **LeetCode**(LINK) and other platforms, consistently improving algorithmic thinking and coding fluency.
- Coordinated inter-college coding contests (Codeathon, CodePuzzle) with 100+ students across 23 teams; learned to manage large-scale event challenges under pressure.

Education

Apollo Engineering College	TN, India
Bachelor of Engineering – Computer Science and Engineering: CGPA: 8.23	Aug 2021 – June 2025
